

BLAST DOORS & HATCHES

DU-IVR Shelter Doors

Atmas DU-IVR are part of a series of heavy-duty blast rated, and gastight doors designed for installation in civil defence shelters and protected facilities. The doors when installed in the shelter were designed to protect the internal space from blast wave pressure (in both positive and negative phase) and create gas tight shelter perimeter helping preventing harmful gases from entering inside.

Blast rating:
>100 kPa (1 bar)

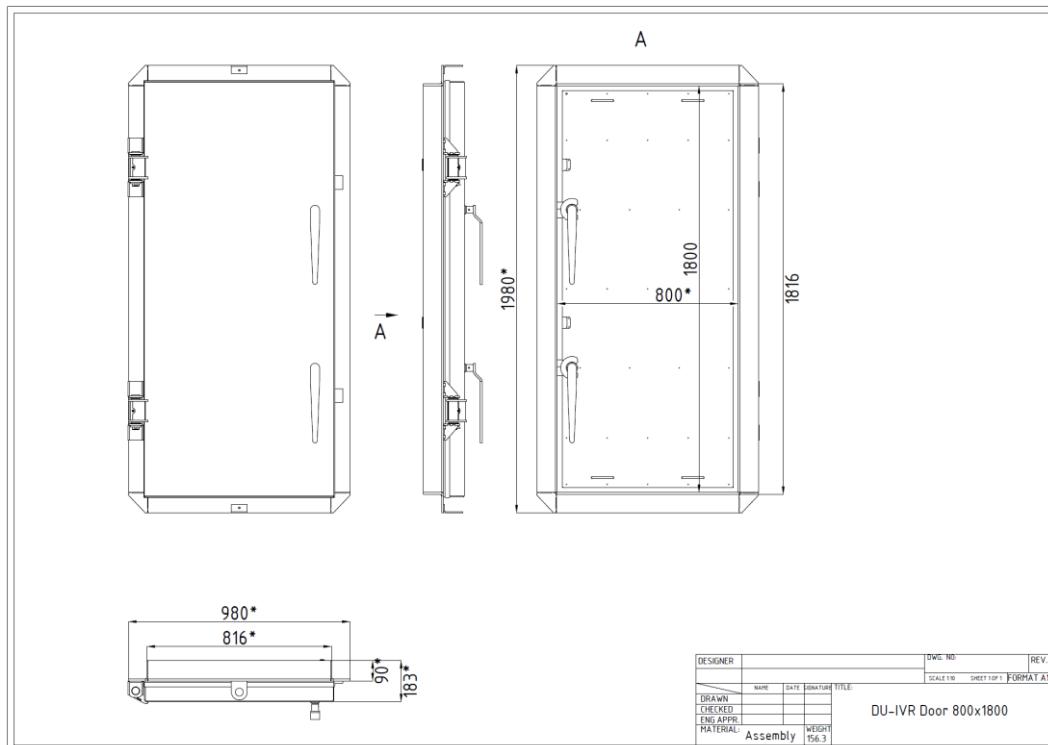

Splinter protection:
Optional with adding armour plate

Gastight:
Yes

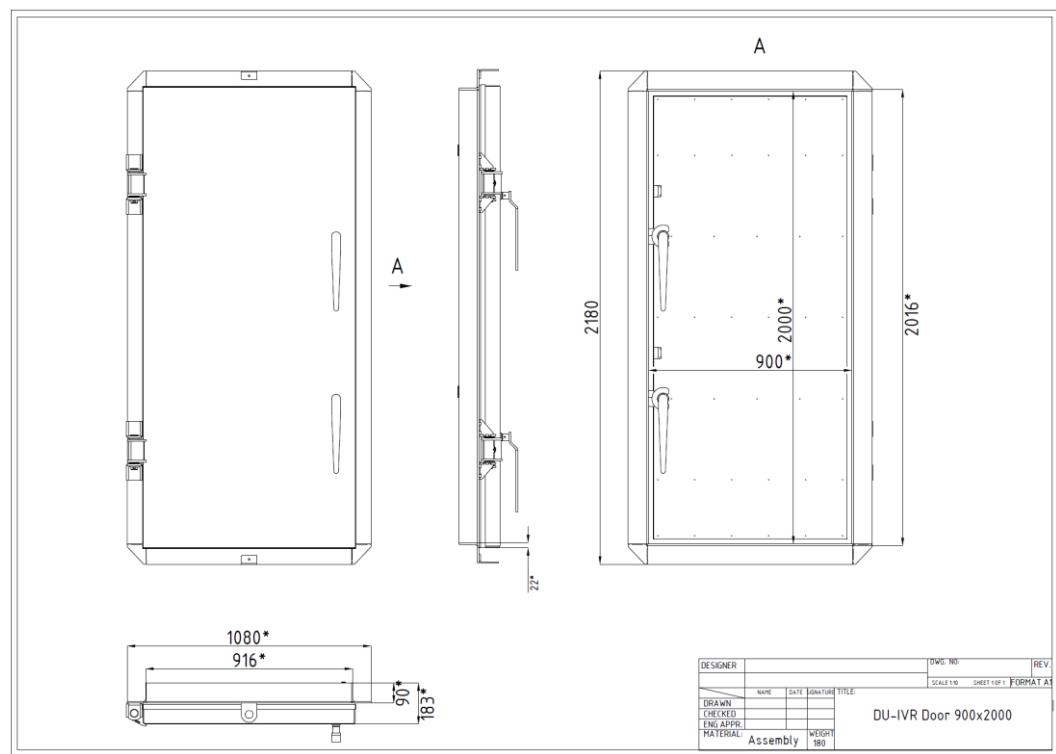

Main Features	
Installation options	Casting or Retrofit, right or left, opening toward outside
