

HIGH STATIC BLOWERS

EBL Series

WHO WE ARE?

- Arconik is an uprising multinational company
- An unique combination of expertise, R&D, know-how, and experience in the area of air filtration solutions positions Arconik as one of the most esteemed and fastest-growing companies in its field in the world.
- Our wide range of solutions provide protection for all, from the smallest system for family protection to systems for protections of thousands of civilians.
- The vast practical & real field experience we have gained through tens of thousands of our successful installations places us as one of the fast growing companies in its field in the world.

MAIN FEATURES

- Arconik blowers are high efficiency multi-purpose Backward Curved Blade radial blowers.
- The blowers are designed to supply air to the shelter through the Blast Valves and filtering system to create the over pressure required.
- The blowers are designed to work with the full range of Arconik filtering solutions.
- Our Blowers have been carefully tested and approved by International Laboratories.

ADVANTAGES

- High efficiency for significant energy savings.
- The blowers are corrosion resistant and maintenance free.
- The following additions can be ordered with the blower:
 - Quick connections
 - Shock absorbers
 - Flexible hoses
 - Silencer
 - One way valve
 - Air flow/pressure meter.
 - Connection to BMS (Building Management Systems)

APPLICATIONS

Critical Infrastructure

Data Centers

Oil Refineries

Power Plants

TECHNICAL SPECIFICATIONS

Properties	Units	High Static Blowers													
Model Numbers		EBL 36	EBL 180	EBL 300	EBL 600	EBL 800	EBL 2400	EBL 3600	EBL 4800	EBL 5400	EBL 6000	EBL 7200	EBL 9000	EBL 10800
